PROFILE

Passionate Front-End Software Engineer with 5+ years Engineer of expertise in building performant, scalable Single Page Applications using React, Redux, and TypeScript. Proficient in improving application performance, conducting code reviews, and delivering robust features with high test coverage. Actively involved in mentoring, team collaboration, and modernizing legacy codebases.

TECHNICAL SKILLS

- React JS
- GraphQL
- Unit Testing
- Redux
- Ant Design
- Playwright
- Typescript
- HTML + CSS
- Jest
- Javascript(ES6)
- Tailwind CSS
- Git

WORK EXPERIENCE

ValueLabs LLP Pvt Ltd

2022 - Present

- Developed modular, responsive components across multiple micro-frontend applications.
- Collaborated within an Agile development team of 10 members to develop high-quality Employee Performance review software within tight deadlines.
- Experienced in integrating multiple micro-frontends into a cohesive user interface, ensuring seamless navigation and consistent user experience across different modules.
- Integrated GraphQL endpoints using Apollo Client for real-time updates and cache management.
- Implemented Jest for manual testing, effectively identifying and addressing new bugs in production giving a code coverage percentage of 85%.
- Created automation test scripts using Playwright to thoroughly test code individual functionality.
- Mentored junior developers and provided code reviews, promoting best practices and continuous learning within the team.
- Actively participated in backlog grooming, estimation, and sprint reviews, ensuring consistent delivery.

Virtusa Consulting Services Pvt Ltd

2021 - 2022

- Developed user interface using ReactJs + Typescript.
- Managed the application state using Redux architecture.
- Integrated Ant-design library into the application to utilize pre-built quality react components.
- Created and executed SQL Scripts and Triggers to perform CRUD operations on the database records.
- Performed extensive debugging for bug fixing of existing modules.
- Delivered regular updates to the business team during scrum while working in a Agile project.
- Developed detailed documentation for both technical and non-technical stakeholders, enhancing transparency and facilitating smoother project handoffs.

- Analyzed, developed, tested, deployed, and maintained a progressive Timesheet software with complete accuracy.
- Updated old code bases for legacy project to modern framework and development standards, improving functionality.
- Wrote SQL statements ,stored procedures and API using Linq queries.
- Created the front-end of the application using React Boilerplate framework.
- Involved in all phases of SDLC like Analysis, Development, Testing and Maintenance using the agile methodology.
- Deployment and maintenance of the application in Azure DevOps App services.
- Actively participated in sprint planning, daily stand-ups, and retrospective meetings, contributing valuable insights and fostering a collaborative team environment.

RECOGNITION AND RESPONSIBILITIES

Recognized with the **Spot Performer** award for outstanding performance in two quarters (Q1 and Q3 of 2020) by excelling in challenging tasks in frontend ReactJs.

Conducted 10+ technical interviews and screening rounds for React candidates.

Facilitated internal training on React Testing Library and Redux best practices, boosting test adoption by 60%.

INTERNATIONAL EXPOSURE

Institut catholique d'arts et metiers, France

2017

Chosen participant for a prestigious summer internship program in France, where I gained invaluable experience in various teaching methodologies, cultivated cross cultural relationships, and applied technical expertise to spearhead a collaborative team project. This opportunity not only enhanced my professional skills but also enriched my understanding of global perspectives in the field of software engineering.

EDUCATION

B.Tech Information Technology

2015 - 2019

Loyola-ICAM College of Engineering & Technology,
Nungambakkam, Chennai.
